

Hello! This is First in L^AT_EX document

We left space up for a new line.

We can also do a soft return by using `\`. But line is not indented.

To enter math mode ($x^2 + 3x + 4$). And to protect the equation to be split in 2 lines use $A(x) = 3x^3 + 7x^2 + 9$ To use displayed math Mode

$$3x^2 + 3x + 1$$

and to use inline math mode $3x^2 + 3x + 1$
